

FORUM: NAURU'S MEDICAL EMERGENCY

MONDAY, OCT 15 – 6:30

ANMF – 535 ELIZABETH ST

Kathy - Iranian refugee, LIVE FROM NAURU

Natasha Blucher - ASRC Detention Rights Advocate &
former *Save the Children* worker on Nauru

Nauru is in meltdown with an escalating medical and mental health crisis as a result of the damage done by offshore detention. Despite Border Force trying to fight doctors' recommendations in court, almost 30 children have been brought off the island, some after spending weeks refusing to eat. Many of the 1000 asylum seekers and refugees who remain on Nauru are barred from US resettlement and are losing hope. Join us to hear first hand accounts of the crisis on Nauru and how we can fight to #BringThemHere
